

CHAPTER - 20

CONFIRMATION OF CORRECTNESS FROM THE CONCERNED OVER THE CHALLENGED CLAIMS RELATED TO SUBJECT ASTRONOMY AND PHYSICS:

REQUEST FOR COMMENTS/SUGGESTIONS

Request to co-operate over the task to put a stop over wrong teaching to the students.

Because World has wrong knowledge over some basics of Astronomy and property of light/rays thus besides existing Science (Astronomy & Physics) concerned, students and coming generations are being taught wrong. To stop this deep routed mind-set trend of the World, shortly Challenger is going to file a suit PIL (Public Interest Litigation) in the Hon'ble Supreme Court of India against the Union Government of India and the concerned Personalities/Departments of India to arrive at the conclusion that what is correct. (Challenger has inadequate financial means to file his claim in any International Court thus presently not moving to International Court).

For giving a support to the proposed suit (PIL), please give your comments and suggestions over the claims made by him for the co-related clubbed discovery over unique property of light/rays and true working mechanism of Solar/Planetary system as illustrated over the Internet pages **website: www.newtonugem.com**

Kindly give your comments over the below stated brief questionnaire. He will feel glad and much obliged if you spare further more time to give some suggestions also along with the said comments on the questionnaire.

Please delete written matter from below stated questionnaire which is/are not required.

Sub: Working mechanism of solar/planetary and galaxy system and unique property of light/rays as illustrated by Ramesh Varma has been fully (all pages) read and understood by me. I am of the opinion and conclude that:

- Contents of the claimed discovery over the working mechanism of solar/planetary and galaxy system based over discovered/understood unique property of light/rays are correct as per my knowledge/understanding and discovery requires World debate/consideration to arrive at the conclusion that what is correct.

OR

- The claimed contents are totally wrong and what the World already knew/knows that all is correct.

OR

- I disagree with some of the claims made/stated, which are as under and the rest of the claims require consideration for acceptance.
